The first of these hearings is set for next Tuesday afternoon.

It occurs to me, as a member of that Committee, as well as a representative of the city of New York, although our views upon political and efficial matters may not coincide, that you, by reason of your prominence in bringing about the recent investigation of city affairs, may desire to discuss some of the measures introduced in the Legislature and referred to this Committee.

I am of the opinion that your views will be of interest, and would be pleased to hear them celivered either in person before the Committee.

"The Evening World" correspondent called on Gov. Morton at 1 o'clock this afternoon and asked if he had yet arrived at any decision in the matter.

"No," he replied, "I have not taken that matter up yet and probably shall not in some little time. I have received several statements in the matter and imagine that there is going to be quite a conflict of opinion."

"But doesn't the twenty-day limit expire very soon?" was asked.

this forenoon and had a long talk, presunably about the course events have
taken.

He said that Lauterbach's spe-ch last
night will probably cause a split.

Mr. Brookfield disposed of all theories
that he might now give up the light by
stating positively to an "Evening
World" reporter.

"I am a candidate for Chairman of
the Republican County Committee."

The Brookfield people are also counting on votes by the Mayor's influence,
provided the Power of Removal bill is
a law when the permanent organization
is effected. They also think that Lauterbach's speech last night, defining the
issue clearly as Platt and anti-Platt,
may convert a few of the delegates, inasmuch as the Platt men have hitherto
denied that this is the issue.

Llama Thibets, \$8.00.

There's an attractiveness about plain, simple facts, and some satisfaction—to us and to people who buy here. Here are the facts, plain and simple.

We've closed our Boston store. We've brought the stock here to sell. We're selling we say, or people wouldn't buy them.

The ones that are reduced the most are nice new goods, made this season, with some few exceptions.

We're selling the Llama Thibet Overcoats too, just as if they were worth no more than the ordinary ones. Full assortments of sizes now. Can't promise how long they will last.

Blue and Black Kersey Overcoats, \$13.80.
True value. \$22.50.
Long, full and deep. Cassimere lited.
Most merchants would carry them to
next season. But that's not our way.

Kersey Overcoats, \$13.00. Former price, \$35.00. No reason for reducing these, except that we can't carry them over. Latest style. Best make. Blue and black. Carr's Melton Overcoats, \$12.50.

These were imported direct by us, and are the best product of the best English makers. They are a little shorter than makers. They are a little lungest overcoats. Real Liama Thibets, \$8.00. Not the kind we sold for \$10, with a plain lining, but the long, deep, full and heavy kind, with bandsome cassimere

lining.

Fifteen dollars was the price, but we can't carry them over. Pur-lined Overcoats, \$50.00. Some for \$60 and \$75, too; were not less than \$80, some \$150. Boston had lots of these.

Irish Frieze Ulsters, Sig. Mostly grey-mixed colors; some few black. Always sold for \$10. English and Scotch Suits, \$10.

Cut in latest style, newest colors and patterns. Some were \$22.50; most of them were \$15 Patent Cut Trousers, \$3.50. Cut by our patented system. Comfortable. Don't bag at the knees like ordinary trousers. Reduced from \$5 and \$6.
